

Positive Impact of Reforms on the Examination Procedures and Processes

The Controller of Examinations (CoE) office has adopted student centric and transparent practices for all the examination related activities. Continuous efforts are made to improve the examination procedures, IT integration in the examination management systems and continuous internal assessment system.

EXAMINATION PROCEDURE

Our institution following Outcome-based education (OBE) to improve the quality and employability of students. Outcome-based education is an education in which an emphasis is placed on a clearly articulated idea of what students are expected to know and be able to do. The evaluation process is the important component of the Outcome-based education. Hence our institution put more emphasis on Question papers. The Question papers are set by external experts and internal experts based on the outcome of the respective courses.

The question papers are scrutinized by the respective external and internal subject experts. The scrutinized question papers are selected randomly before the examination and printed and issued to the students.

Periodically, the question papers of semester examinations are subjected to academic audit by experts from higher learning institutions in order to identify the scope for improvement in the standard of questions. For the use of the students, all the question papers of the previous examinations are made available in the library. Examination squads are constituted to ensure fair conduct of theory examinations and also to verify adherence to norms and rules to be followed.

The semester examination answer scripts are first assigned with dummy numbers. The external examiners are also appointed for evaluation. The external and internal examiner ratio is 50:50. The examiners who evaluate the answer scripts do not know the identity of the students due to dummy number system.

The result passing board verify the results and approve it for publication. After the publication of the results, If the student feels that there is scope for additional marks, they can check it by applying for photocopy or direct revaluation. If any student has grievances regarding the examination process, an examination grievance committee is available to address it.

Every semester, after the publication of results the individual semester wise grade sheets are printed and issued to the students. Consolidated grade sheets are printed and issued to the students those who are passed in all prescribed courses given in the respective curriculum. The list of candidates eligible for the award of degree forwarded to the affiliating university.
