29.08.2020
Flyer

The flyer is for a National Webinar organized by the Department of Computer Science & Engineering at Sethu Institute of Technology. The event is titled "National Webinar on Significance of Test Strategy in SDLC" and is scheduled for August 29, 2020, from 11:00 am to 01:00 pm. The chief guest is Mr. Krishnaprasath Paulsamy, Assistant Consultant at Tata Consultancy Services, Chennai. The conveners are Dr. C. Callins Christiyana, Prof. & Head, CSE. The co-ordinators are Dr. R. Rubesh Selvakumar, Asso. Prof., CSE; Mr. R. Rajaguru, Asso. Prof., CSE; and Mr. B. Sivananthan, Asst. Prof., CSE. The student co-ordinators are B. Venkatesh Gowtham, IV Year, CSE, and V. Sujith Viswanath, IV Year, CSE. The flyer includes contact information for the department, a registration link, and a QR code for registration. It also mentions that an e-certificate will be provided for students and faculty members and that registration is free. The Sethu Institute of Technology logo and NAAC accreditation are also displayed.

The flyer is a vertical rectangular document with a red and white color scheme. At the top, it features the Sethu Institute of Technology logo on the left and the NAAC 'A' grade accreditation logo on the right. The header text reads: 'SETHU INSTITUTE OF TECHNOLOGY (An Autonomous Institution | Accredited With A Grade by NAAC) PULLOOR, Kariapatti-626115, Virudhunagar District, Tamilnadu'. Below this, it states 'Department of Computer Science and Engineering ORGANIZES'. A yellow starburst graphic on the left says 'FREE WEBINAR ON'. The main title is '“INTRODUCTION TO R PROGRAMMING FOR DATA ANALYSIS”'. The 'RESOURCE PERSON' section includes a photo of Mrs. J.A.M. REXIE, Assistant Professor at Karunya Institute of Technology and Sciences, Coimbatore. The 'Date: 03.02.2021' and 'Time: 11 a.m to 12 p.m' are listed. The 'PATRONS' section lists Mr. S. Mohamed Jaleel, Founder and Chairman. The 'CONVENOR' is Dr. N. Balaji, Dean & HOD/CSE. 'CO-CONVENORS' include Dr. C. Callins Christiyana, Professor & Dean (DRC), and Dr. M. Microgrid

- ❖ It is resilient
 - ✓ microgrids do not dependent on the traditional grid and can be used to supply critical loads in case of the grid system is disconnected due to faults.
- ❖ It can save money
 - ✓ Using sophisticated software, operators can optimize power usage based on demand, utility prices, and other factors.
- ❖ It can store and incorporate renewable energy
 - ✓ This can save money and reduce carbon-dioxide emissions, as often required by government regulations.

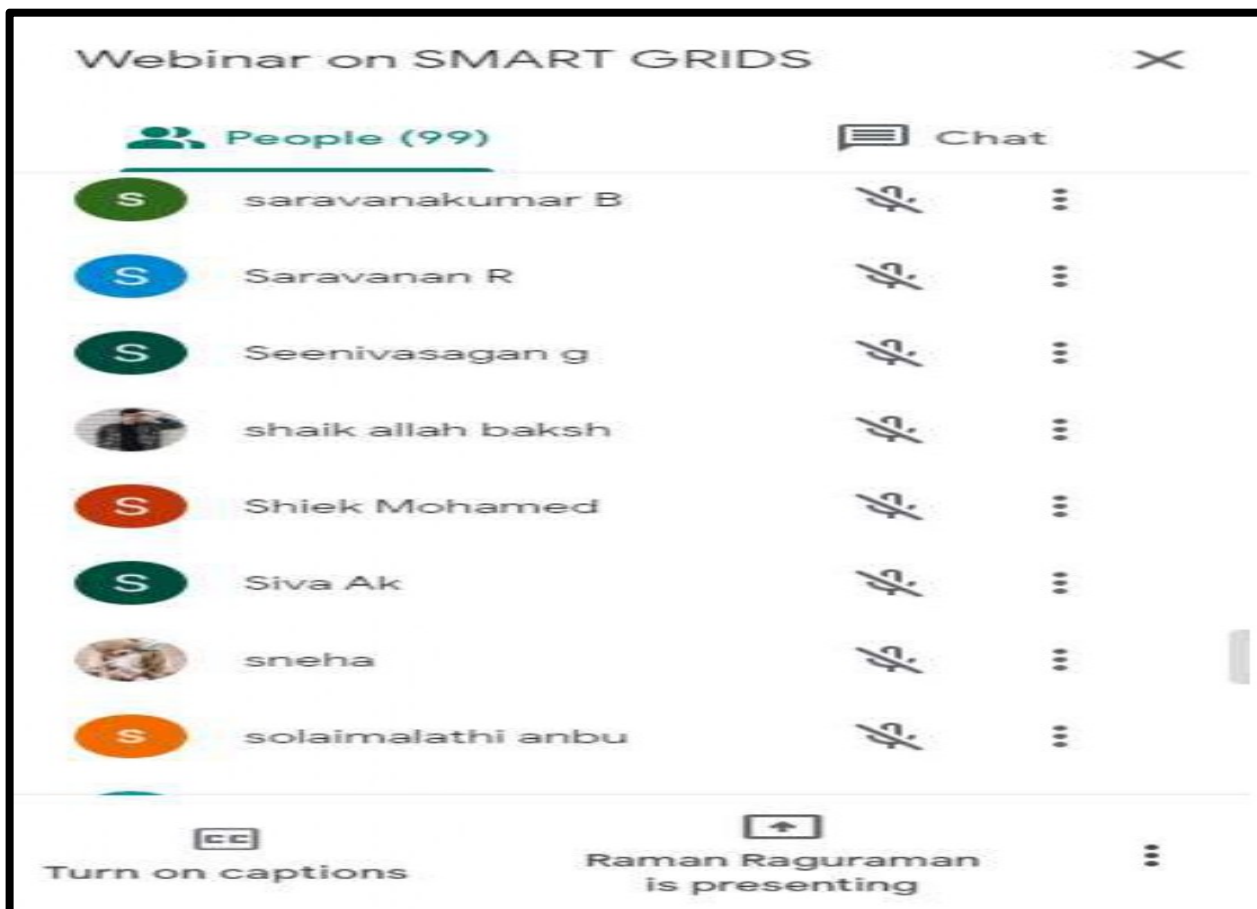

Comparison of Existing Grid vs Smart Grid

Preferred characteristics	Existing Grids	Smart Grids
Active consumer Participation	Consumers are uninformed and do not participate	Interested, involved consumers demand response and distributed energy resources
Accommodation of all generation and storage options	Dominated by central generation - many obstacles exist for distributed energy resources; interconnection	Many distributed energy resources with plug and play convenience factor as renewable
New product services and markets	Limited poorly integrated whole sale markets; limited opportunities for consumers	Monitor well integrated whole sale markets for consumers
Resiliency against cyber attack and natural disasters	Vulnerable to malicious acts of terror and natural disasters and slow response	Resilient to cyber attack and natural disasters; Rapid restoration capabilities

Dr.G.Idhayachandran gave a lecture on “Research Avenues in Antenna designs”
On 16.07.2021 through google meet online mode.

Screenshot of the Programme

The screenshot displays a Google Meet interface. At the top, a presentation slide titled "EM Spectrum" is shown. The slide features a horizontal axis representing the electromagnetic spectrum, divided into regions: Radio, Microwave, Infrared, Visible, Ultraviolet, X-Ray, and Gamma-Ray. Below this, a wavelength scale is provided in meters (m), millimeters (mm), and nanometers (nm). A radiation type diagram shows the corresponding wave patterns for each region. A frequency scale is also present, with units like Hz, MHz, GHz, THz, PHz, and EHz. A small status bar at the bottom of the slide indicates "meet.google.com is sharing your screen." Below the presentation, a black bar displays the text "Dr Idayachandran G is presenting" next to a full-screen icon. The bottom section of the screen shows four participant avatars in a 2x2 grid. The top-left avatar is a pink circle with the letter "D" and the name "Dr Idayachandran G". The top-right avatar is a circular photo of a man with the name "PRANAV". The bottom-left avatar is a blue circle with the letter "R". The bottom-right avatar is an orange circle with the letter "O". Each avatar has a mute icon (a microphone with a slash) in the top right corner. A large play button icon is centered over the avatars.

Dr.S.Selvendran gave a lecture on “Journal Indexing and Metrics calculation”
On 17.07.2021 through google meet online mode.

Screenshot of the Programme

The screenshot displays a Google Meet interface. At the top, a presentation slide titled "IMPORTANT POINTS IN MANUSCRIPT WRITING" is visible. The slide content includes:

Results and discussion:

- i) Describe the initial conditions are chosen to proceed with the analysis.
- ii) Discuss the parameters involved in your analysis and draw the plot for each parameter variation.
- iii) At least performing the system analysis in 2 or 3 methods and compare the results to find an optimal one.
- iv) Also, compare your optimal results with existing reported results and highlight the results which are all improved.
- v) Ensure the figures are in vector file with the use of some special tool like origin pro, adobe Photoshop, Corel draw.

Conclusion:

- i) throughout the paper what you have demonstrated
- ii) step by step what are the analysis are you have taken, and the results you have obtained (in numerical value)
- iii) from this all numerical data what you have come to conclude.
- iv) Application area of your proposed work.
- v) leave the scope for the future researcher from your work.

Handwritten notes in red ink are visible on the slide, including "JVI", "GMS", "SPS", and "WMS".

Below the slide, the name "Dr. Selvendran" is displayed next to a notification icon. The bottom section of the screenshot shows four participant tiles in a 2x2 grid:

- Top-left: Dr. Selvendran (profile picture of a man with a mustache).
- Top-right: Vinitha (green circle with a white 'V').
- Bottom-left: A blue circle with a white 'R'.
- Bottom-right: A circular profile picture of a person.

Each participant tile has a mute icon in the top right corner. A large play button icon is centered over the top two tiles.

Mr.I.Deva priya gave a lecture on " Connect and configure network devices using cisco packet tracer “on 05.12.2021 through google meet online mode.

Screenshot of the Programme

The image displays two screenshots of a Google Meet session. The top screenshot shows a presentation titled "Computer Network" with the definition: "Group of computing devices connected to each other to communicate and share information." The diagram illustrates a network topology with various devices like laptops, servers, and routers connected. The bottom screenshot shows a presentation titled "Data Link Layer" with the definition: "Data Link Layer prepares communication for transmission on specific media." The diagram shows the seven layers of the OSI model, with the Data Link layer (Layer 2) highlighted. The bottom layer is labeled "Physical" and the top layer is "Application". The network is represented by a cloud icon. The bottom screenshot also shows a list of participants in the meeting, including Akshaya Varshini, K.A.Mohammed, DEVA PRIYA I., HOD CSE, Jaya prabhu, Sethupathiyar A., Shiny Joy, Somakumaran S, B.Thamo Tharan, and atchaya r.
