## Webinar on Stress and coping in COVID

05.07.2021

### Screenshots of the program

The top screenshot displays a Google Meet interface with a presentation slide titled "STRESS". The slide defines stress as an "Imbalance between demands in your life and resources you have" and includes a diagram of a balance scale with "Resources" on one side and "Demands" on the other. It also lists coping strategies: "Strengthen immunity", "Harness psychological stability", and "Use our intelligence to become part of the solution not the problem". The bottom screenshot shows a slide titled "MENTAL HEALTH" with a central flowchart. It lists factors such as "Lack of infectious disease knowledge", "Lack of physical & mental health knowledge", "Lack of healthy behaviors", "Change in sleep pattern & nutrition", "Economic problems", "Lack of schooling", "Facing great changes & inadaptability", "Lack of /inefficient coping methods", "Excess screen time/impact of social media", "family violence/relationship conflicts/arguments", "Quarantine/isolation/stigma", "Fear about health-self & family", and "Uncertain about future". These factors lead to "STRESS", which then leads to "ANXIETY" and "DEPRESSION". The bottom screenshot also shows a notification that "Bagavathi Sabari has left the meeting".
