What's your Next Step? How to be Successful in your Career	01.07.2021	21-27
Webinar on Overcome the Fear of Public Speaking	03.07.2021	28-33
Webinar on Advances in Non-Destructive Testing techniques	06.07.2021	34-38
Webinar on Spotlights on Engineers to Industry-Roadmap to Automotive Sector Jobs	10.07.2021	39-43
Clouding with Microsoft Azure	10.07.2021	44-49
Research Avenues in Antenna designs	16.07.2021	50-53
Journal Indexing and Metrics calculation	17.07.2021	54-57
Webinar on Augmented Reality	17.07.2021	58-63
Webinar on Multidisciplinary Research: Barriers and Opportunities in Bioinformatics and Medical Informatics	22.07.2021	64-67
Preparing for Careers of Tomorrow	23.07.2021	68-73
Webinar on " Prototype Validation: Transform Prototype into a Startup"	26.07.2021	74-77
Webinar on "Industry Engineer: Phase Change from Student to Professional"	28.07.2021	78-81
Webinar on "Designing the Future Today"	31.07.2021	82-87
Webinar on Emerging Trends in Computing Technologies	23.08.2021 to 25.08.2021	88-94

5 Day Internship Program on How to Build IoT Products from Scratch to Market using IoT Boards	26.10.2021 to 30.10.2021	95-100
Antenna Design using CST	28.10.2021	101-111
Seminar on Intellectual Property Rights (IPR) & Innovation	12.11.2021	112-117
Webinar on Successful Entrepreneurs Diary	22.11.2021	118-130
Webinar on Connect and Configure Network Devices using Cisco Packet Tracer	05.12.2021	131-138
Design of Control Circuit with PSO for choosing best Switching Angle for Cascaded MLI	17.12.2021	139-143
An Overview of Big Data and Hadoop using Cloudera	19.01.2022	144-148
Visualization Using Tableau	24.01.2022	149-152
Webinar on Design Thinking, Critical Thinking and Innovation Design	29.01.2022	153-156
Webinar on Recent Advances in Machining	05.03.2022	157-162
Hands on Training in Injection Molding- Basics and Industry Perspective	09.03.2022 to 12.03.2022	163-171
Guest Lecture on Innovative Product Development	11.03.2022	172-176
IEI Sponsored All India Seminar on Smart Antennas for 5G Applications	20.05.2022	177-188
Webinar on carrier opportunities for design engineer in IT sectorsa	28.07.2022	189-194
Two Day National Level Online Seminar on “Impact of COVID19 – Advanced Technologies and Devices”	29.07.2022 & 30.07.2022	195-205
Guest Lecture on " Supply Chain 4.0 : Opportunities and Challenges"	06.08.2022	206-210
Workshop on “ Material Scientist: How, Do, When & What”	25.08.2022	211-217
Design of ON Chip Spiral Inductors for RF Applications	29.08.2022	218-223
One day Workshop “Opportunities for Engineers in Renewable Energy Sector”	30.08.2022	224-233

Dr.G.Idhayachandran gave a lecture on “Research Avenues in Antenna designs”
On 16.07.2021 through google meet online mode.

Screenshot of the Programme

The screenshot displays a Google Meet interface. At the top, a presentation slide titled "EM Spectrum" is shown. The slide features a horizontal axis representing the electromagnetic spectrum, divided into regions: Radio, Microwave, Infrared, Visible, Ultraviolet, X-Ray, and Gamma-Ray. Below this, a wavelength scale is provided in meters (m), millimeters (mm), and nanometers (nm). A radiation type diagram shows the corresponding wave patterns for each region. A frequency scale is also present, with units like Hz, MHz, GHz, THz, PHz, and EHz. A small status bar at the bottom of the slide indicates "meet.google.com is sharing your screen." Below the presentation, a black bar shows "Dr Idayachandran G is presenting" next to a full-screen icon. The bottom section of the screen displays four participant avatars in a 2x2 grid. The top-left avatar is a pink circle with the letter "D" and the name "Dr Idayachandran G". The top-right avatar is a circular photo of a man with the name "PRANAV". The bottom-left avatar is a blue circle with the letter "R". The bottom-right avatar is an orange circle with the letter "O". Each avatar has a mute icon (a microphone with a slash) in the top right corner. A large play button icon is centered over the avatars.

Dr.S.Selvendran gave a lecture on “Journal Indexing and Metrics calculation”
On 17.07.2021 through google meet online mode.

Screenshot of the Programme

The screenshot displays a Google Meet interface. At the top, a presentation slide titled "IMPORTANT POINTS IN MANUSCRIPT WRITING" is visible. The slide content includes:

Results and discussion:

- i) Describe the initial conditions are chosen to proceed with the analysis.
- ii) Discuss the parameters involved in your analysis and draw the plot for each parameter variation.
- iii) At least performing the system analysis in 2 or 3 methods and compare the results to find an optimal one.
- iv) Also, compare your optimal results with existing reported results and highlight the results which are all improved.
- v) Ensure the figures are in vector file with the use of some special tool like origin pro, adobe Photoshop, Corel draw.

Conclusion:

- i) throughout the paper what you have demonstrated
- ii) step by step what are the analysis are you have taken, and the results you have obtained (in numerical value).
- iii) from this all numerical data what you have come to conclude.
- iv) Application area of your proposed work.
- v) leave the scope for the future researcher from your work.

Handwritten notes in red ink are visible on the slide, including ".JPG", ".GMS", ".SPS", and ".WMS".

Below the slide, the name "Dr. Selvendran" is displayed next to a notification icon. The bottom section of the screen shows four participant tiles:

- Top-left: Dr. Selvendran (with a microphone icon above the avatar).
- Top-right: Vinitha (with a mute icon above the avatar).
- Bottom-left: A participant with a blue circular avatar containing the letter "R" (with a mute icon above the avatar).
- Bottom-right: A participant with a circular avatar showing a person in a blue shirt (with a mute icon above the avatar).

A large play button icon is centered over the participant tiles.

Mr. D. Mohamed Ismail gave a lecture on "Industry Engineer: Phase change from Student to Professional"
on 28.07.2021 through google meet online mode.

Screenshot of the Programme

The screenshot shows a Google Meet window with a PowerPoint presentation. The presentation is titled "A discussion on phase change from Student to a Professional" and is being presented by "Ismail Mammuty". The current slide is titled "Industrial revolution 1.0 (18th century)" and features a steam locomotive. The text on the slide reads: "Mechanization, steam & waterpower". The slide source is cited as "Image source: Google". The Google Meet interface shows a video feed of the presenter, Mohamed Ismail, and a watermark that says "Activate Windows Go to Settings to activate Windows."

The current slide is titled "Industrial revolution 4.0 (Current)" and features a circular diagram with icons for Robot, HR, Sensor, Monitoring Tool, Instrument, and Control System. The text on the slide reads: "Industry 4.0 is the latest transformation within automation and industry, built around the ethos of using cyber-physical systems, which can monitor and augment existing processes, in just about all manufacturing processes, across all segments". The slide source is cited as "Image source: Google". The Google Meet interface shows a video feed of the presenter, Mohamed Ismail, and a watermark that says "Activate Windows Go to Settings to activate Windows."

Dr. M. Uthayakumar gave a lecture “Recent advances in machining” on 05.03.2022 through google meet online mode.

Sample Screenshot of the Programme 1

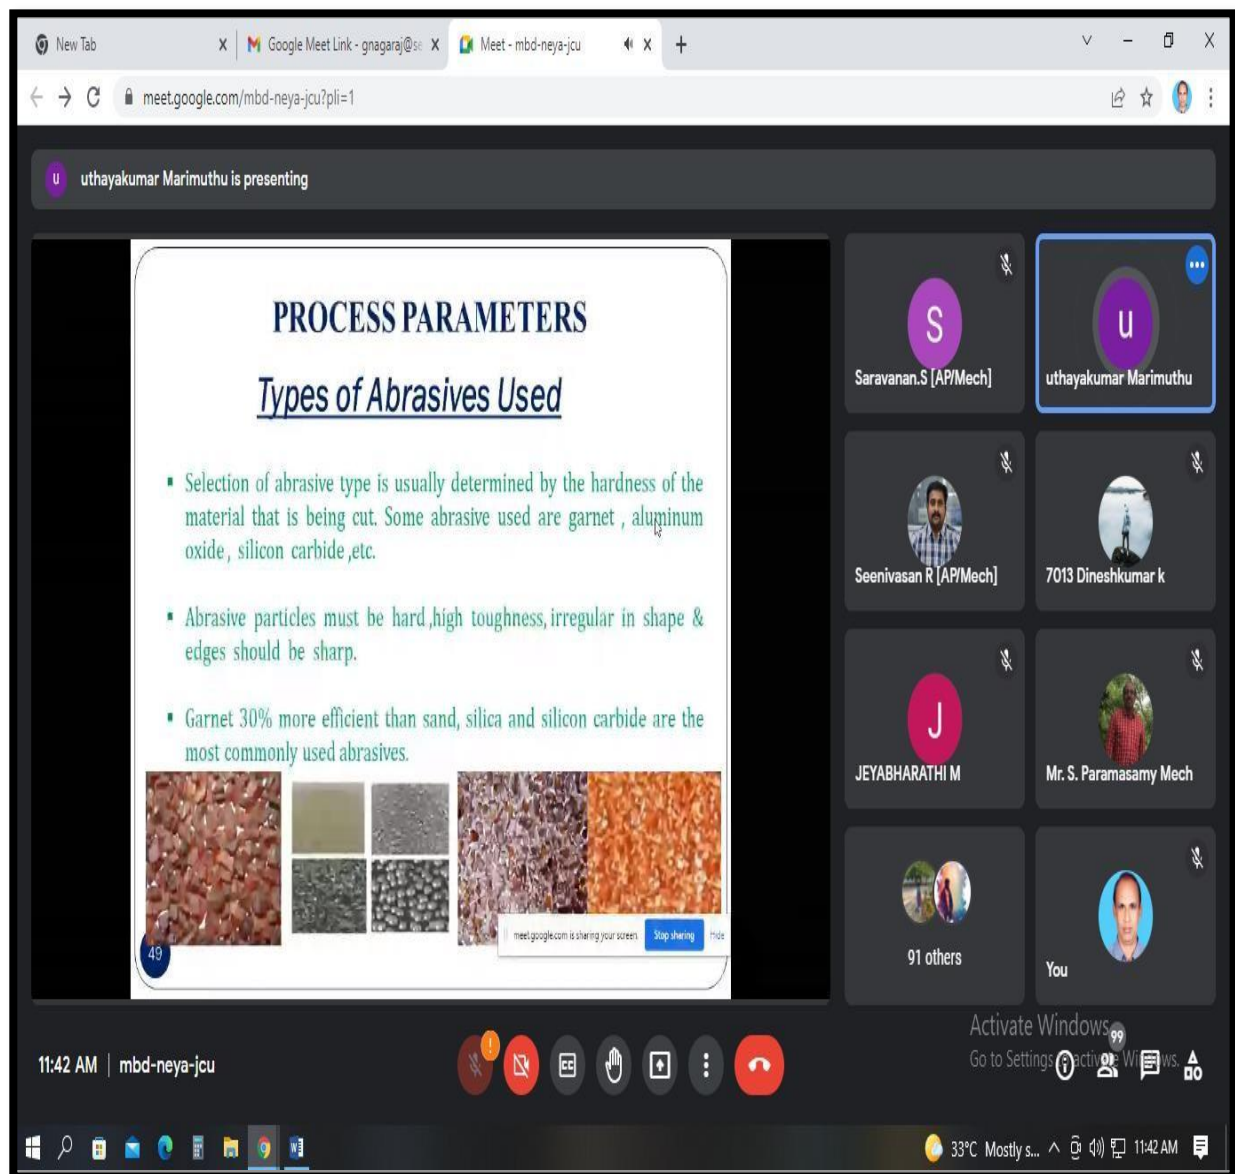

The screenshot shows a Google Meet interface during a presentation. The main window displays a slide titled "Quality of Machining" with the sub-heading "Kerf in AWJM". The slide content includes:

- Kerf is defined as the width of material that is removed by a cutting process. Top of the kerf (b_t) is wider than the bottom of the kerf (b_b).
- b_t is equal to the diameter of nozzle or the insert if the stand-off distance (SOD) is around 1 to 5 mm.
- Taper angle of the kerf can be reduced by increasing the cutting

Below the text are two diagrams: a 3D perspective view of a kerf with labels b_t and b_b , and a 2D cross-sectional view showing the "Jet affected zone". The slide number "56" is in the bottom left corner. The right sidebar shows a grid of participants: Saravanan.S [AP/Mech], uthayakumar Marimuthu (active), Seenivasan R [AP/Mech], 7013 Dineshkumar k, JEYABHARATHI M, Mr. S. Paramasamy Mech, 86 others, and You. The bottom status bar shows the time as 11:45 AM, the meeting ID mbd-neya-jcu, and system icons for Windows, temperature (33°C), and network status.

Workshop report for "Hands on training in Injection Molding - Basics and Industry perspective"

Blessings of SIT Management, having constant encouragements of our respected Chairman Mr. S.Mohammed Jaleel and Our beloved Principal Dr.A.Senthil Kumar, a 4 days workshop is conducted in order to enhance learning skills of our students, the department of Mechanical Engineering is hosting on the following schedule and the topic:

Topic: Hands on training in Injection Molding - Basics and Industry perspective

Date: 09.03.2022 to 12.03.2022

Time: 11.00 AM to 04.00 PM

Description:

During this workshop, Experts shared the thoughts of his experience in the field Injection moulding, Design and manufacturing of plastic injection mould, Types of injection moulding machines, Injection Unit, Clamping Unit

Program:

For this Workshop, 190 Students have participated. At the beginning, Dr.G.D. Sivakumar Vice principal and Dean mechanical gave a welcome address to the guest and participants and after the presentation Dr.C.Muthu samy HoD Mechanical delivered the vote of thanks. From the workshop, the participants had the opportunity to know about the Hands on training in Injection Molding - Basics and Industry perspective"

Dr. A. Saravanakumaar **gave a lecture on** Hands on Training in Injection Molding- Basics and Industry Perspective on 09.03.2022 to 12.03.2022

IEI has membership strength of over 0.8 million. Established in 1920, with its headquarters at 8 Gokhale Road, Kolkata - 700020, IEI has served the engineering fraternity for over nine decades. In 1935, IEI was incorporated by Royal Charter and remains the only professional body in India to be accorded this honour. Today, its quest for professional excellence has given it a place of pride in almost every prestigious and relevant organization across the globe. IEI functions among professional engineers, academicians and research workers. It provides a vast array of technical, professional and supporting services to the Government, Industries, Academia and the Engineering fraternity, operating from 122 Centres located across the country. Madurai Local Centre is one among the Best Local Centre. The Institution has established R&D Centres at various locations in the country and also provides grant-in-aid to its members to conduct research and development on engineering subjects. IEI conducts Section A & B Examination in different Engineering disciplines, the successful completion of which is officially recognized as equivalent to a Degree in appropriate field of Engineering of recognized Universities of India by the Ministry of Human Resources Development, Govt of India. Every year as many as 90000 candidates appear for these exams. For details, please visit www.ieindia.org.</p> <p>About SETHU INSTITUTE OF TECHNOLOGY: A twenty Five years old Engineering college serving the Educationally, Economically and Industrially backward rural mass. This institute imparts technical education based on three cardinal principles: Knowledge, Service and Progress. It was established in the year 1995, offering currently 9 UG courses and 5 PG courses out of which 6 UG courses have been accredited by NBA, New Delhi. The department of Electronics and Communication Engineering was incepted in the year 1997 with the objective of developing communication engineers to achieve excellence in global scenario.</p>

About DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING:

The department has been accredited by National Board of Accreditation (NBA), New Delhi. It has well equipped laboratories with the state of art equipment's. The department is being run with the P.G Course, M.E (Communication System).

Vision :

To achieve excellence in education and research in the field of Electronics and Communication Engineering for the development of society.

Mission:

➤ Imparting quality technical education in Electronics and Communication Engineering through contemporary laboratory facilities and accomplished faculty to cater to the needs of the industry.

➤ Providing a conducive learning environment through the state of the art infrastructure and innovative teaching learning practices.

➤ Infusing the professional skills needed for employability and entrepreneurship.

➤ Collaborating with industries for mutual benefit of knowledge transfer.

➤ Promoting research in Electronics and Communication Engineering.

➤ Providing services to the society through extension activities and technology enabled services.

Objective:

The aim of this One Day All India Seminar is to equip graduate students and Academic Researchers for knowing the importance Smart Antennas in 5G Applications.

About the Theme:

A smart antenna is a specific type of digital antenna with capabilities related to signal-tracking and handling. A smart antenna system consists of an antenna array, the associated RF hardware, and a computer controller that changes the array pattern in response to the radio frequency environment to improve the performance of the communication system. Smart antennas include signal processing capabilities that can perform tasks such as analysis of the direction of arrival of a signal, and can adapt the antenna itself using beam-forming techniques.

5G has high data rates in the range of several gigabits per second and low latency, which is faster than human visual processing, making it possible in near real time with enhanced capacity, increased bandwidth, and high coverage area. 5G communication is vital for certain applications, such as self-driving cars and connected vehicle services, smart homes, smart cities, robotics, and industrial automation. 5G antennas are found virtually everywhere in metropolitan areas for 5G communication; however, they will not be able to cover many of the 5G applications. Smart antennas can be used in 5G applications because of their beam forming technology. Hence, understanding smart antennas in 5G is a popular topic in the current scenario.

Seminar Topics:

- Overview of Smart Antennas
- Smart Antennas used in 5G Application
- Healthcare Antennas for 5G

Resource persons: Sessions will be handled by Experts from Industries and reputed Institutions.

Who can attend?

The faculty members and students from Engineering colleges, Universities, Research Institutions and Industries are eligible to participate in this All India Seminar on "Smart Antennas for 5G Applications".

Registration :

Students :Rs. 200/-
Academic/Research Institutions : Rs.500/-
Delegates from Industries :Rs.1,000/-

Last date for Registration : 17-05-2022

Contact Person:

Dr.N.R.Indira, Asso.Prof/ECE
Ph.No.9952988991

Payment :

All payments are to be made through crossed Demand Draft / at par Cheque, drawn in favour of "The Institution of Engineers (India), Madurai Local Centre" payable at Madurai.

ABOUT THE INSTITUTION	ABOUT THE SEMINAR	RESOURCE PERSONS
<p>Sethu Institute of Technology is an Autonomous, self-financing Engineering College established in the year 1995, Approved by AICTE, New Delhi, Affiliated to Anna University, Chennai, Accredited by NAAC with A Grade, Recognized by UGC with 2(f) & 12(b), Accredited by NBA (CSE, ECE & EEE, MECH, IT). The College has 13 UG courses (CSE, IT, ECE, EEE, Mech, Civil, Chemical, Agriculture Biomedical, Biotechnology, CSBS, CSDS, AI DS) and 5 PG courses, CAD/CAM, Communication System, CSE, Power Electronics and Drives, Structural Engineering. The college has received research grants from various Funding Agencies, organized International and National Conferences, conducted Guest Lectures, Seminars, Workshops and Project Expo. The College has signed MOU with Industries and R&D Institutions like ICAR-NRCB, CISCO, DELL EMC, Wizard Systems, EFY and ABE Technologies for Centre of Excellence. The College attracts outstanding students by virtue of its Discipline, Modern Infrastructure, Library and Faculty Members.</p>	<p>Covid-19 has impacted all walks of life so much, the only way that, we may return to the old normal life is with advanced Technologies and safety measures with new devices. Hence, it is needed to adopt new technologies in healthcare, smart homes, smart buildings, smart cities, transportation, and industries. These advanced technologies and initiatives are multiplying to attempt to control the situation, effectively treat patients, and facilitate the efforts of overworked health care workers. Biomedical and Biotechnology researchers while developing new effective vaccines and medical devices. This analysis examines in detail how five advanced technological domains are helping to survive in normal life. The advanced technology in itself cannot replace or make up for other public Covid policy measures, but it plays a major role in an emergency.</p> <p>In the future, in any type of disease, the following five advanced technologies will be crucial for maintaining public trust and public health interventions.</p>	<p>Dr.R.Periyasamy Assistant Professor Dept. of Instrumentation and Control Engg. National Institute of Technology, Trichy. Tamilnadu.</p>  <p>Dr.B.Hemakumar Assistant Professor Dept. of Electronics and Instrumentation Engg. Pondicherry Engineering College. Puducherry. <p>ABOUT THE DEPARTMENT</p> <p>The department Biomedical Engineering has excelled in its infrastructural facilities keeping pace with the latest development in technologies. Besides teaching, the department is actively involved in moulding the students for placement, providing communication classes, technical and aptitude classes, doing mini projects, industrial consultancy, conducting training programmes for students and makes them to be self-supportive. The Department is known for its extensive and fruitful interaction with the Industries and other R&D organizations. The department is well established Signal condition lab with advanced technologies for centre of excellence. The faculty members are well experienced and dedicated towards the upliftment of the student community. The students are exposed to the practical and industrial aspects of the subjects through laboratory works and periodic industrial visits.</p>	<p>TOPICS TO DISCUSS</p> <ol style="list-style-type: none"> 1. Open source technologies 2. Telehealth technologies 3. Gene technologies 4. Synthetic biology 5. Drones, Robots and Nanotechnology <p>By using these methods, we can also improve the accuracy of prediction for screening both COVID-19 affected patients and normal patients.</p>	<p>IMPORTANT DATES</p> <p>Last date for registration : 18.07.2022 Intimation of Selection : 19.07.2022 Confirmation by Participants: 20.07.2022</p> <p>ADDRESS FOR COMMUNICATION</p> <p>Dr.R.Arangasamy Dean, Professor & Head Department of Biomedical Engineering Sethu Institute of Technology Kariapatti, 626115.
