What Kind of Mindset Do I Want to Have During COVID-19?

Problem ?	Fixed Mindset 	Growth Mindset 	Innovation Mindset 
COVID-19 is making people sick all over the world.	I am scared and worried about what is happening. It is out of my control.	I can stay well-informed about the situation to understand how it impacts on me and my family.	I can use the information I learn to make the most of this situation.
Schools are closed and children are learning from home.	I can't learn if I can't go to school.	I can keep learning if I put in the effort and stay motivated.	I have a unique opportunity to learn new skills and try something I've never done before.
We are all being asked to practice social distancing.	I have to stay indoors and do nothing.	I can find new ways to do things if I try.	Social distancing gives me the opportunity to help people do things differently.
We can't do activities in groups.	I can't see my friends or do fun activities with them.	I can stay connected with my friends if I put my mind to it.	I can help people stay connected using technology in innovative ways.
BAHESHREE DEVI <small>Psychiatrist at Shree Aditya Clinic - Madurai</small>		I can help solve problems if I work hard and learn from others.	I can design a solution to a problem.
